SPECIAL COLLECTIONS OF FOUNDATION PLANT MATERIAL

These collections are valuable to home-owners who are not entirely familiar with Broad-leaved Evergreens. The plants are from my regular stock, and I feel sure they will please you when they arrive—and for many seasons thereafter.

JULY AND AUGUST ACCEPTANCE PREPAID TO DESTINATION

SPECIAL COLLECTION NO. 27

RHODODENRON CATAWBIENSE. Catawba Rhododendron. Vigorous, hardy, free-blooming. Color rosy purple.

RHODODENDRON MAXIMUM. Rose Bay. Pinkish white flowers in July. The grandest of all.

KALMIA LATIFOLIA. Mountain Laurel. A lovely native, with pink or rose flowers.

LEUCOTHOE CATESBAEI. Drooping Leucothoe. Flowers creamy white, drooping and showy.

Five plants of each, 12 to 18 in.
(20 plants in all), for only..... **\$24.00**

SPECIAL COLLECTION NO. 28

AZALEA CALENDULACEA. Flame Azalea. A native species. Color varies from orange to canary.

AZALEA VASEYI. Pink-Shell Azalea. Early free blooming. Flowers pink or rose.

Ten plants of each, 12 to 18 in.
(20 plants in all), for only..... **\$19.75**

SUMMER 1944

SPECIAL OFFERING

HARDY AMERICAN PLANTS: Wildings from the Great Southern Mountains, Rare and Unusual Plants, Rhododendrons, Azaleas, Specimen Evergreens, Shade Trees, Flowering Trees and Shrubs, Broadleaf Evergreens, Rock Garden Plants, Groundcovers, Herbaceous Perennials, Vines and Creepers. Unequalled Plant Material for all Naturalistic Plantings.

HARDY NATIVE HERBACEOUS PERENNIALS

This list contains a variety of Herbaceous Plants furnishing a succession of bloom from early spring to late autumn, all having been tried out with success in cultivation. The height indicates the approximate height of each plant as found in wild state. The time of blooming naturally depends on locality.

HARDY NATIVE FERNS

For shady locations, no class of plants can equal the Ferns. They are easily grown in ordinary soils and will often thrive where it is impossible to make flowering plants succeed. We handle large quantities of Ferns annually and recommend the following:

	1 to 9	10 to 24	25 to 249	250 or over
	EACH PRICE IN QUANTITIES

PACKING ADDITIONAL AT COST ON CHARGE ORDERS

HOW TO SUCCESSFULLY GROW NATIVE AZALEAS AND BROAD-LEAVED EVERGREENS

FOR best results, plant Azaleas, Kalmias, Leucothoe, Pieris, and Rhododendrons in mild, acid soil, in partial shade, with good drainage. A deep, porous soil is very essential to grow this class of stock. The ground should be excavated to a depth of at least 2 feet or more. Leaf-mold, humus, or well-rotted stable manure should be carefully worked in and packed tight around the roots. Fill in excavation with rotted sods, muck, or peat soil, mixed with a small quantity of sand, avoiding the use of lime.

Plant the same depth as shown by earth-line near the base, which indicates how deep the plant was imbedded before being dug for shipment. When planted, mulch with several inches of forest leaves. Allow this mulching to remain around the plants and renew annually each autumn. This mulch keeps the ground cool in summer and protects against freezing in winter. A thin covering of rich soil may be used to good advantage in holding the mulch in place and to assist the leaves in decomposition.

Carefully observe these instructions, and your planting will succeed.

For planting in borders and Rhododendron-beds, the following are recommended: Galax, Shortia, Ferns, Orchids, Lilies, Trilliums, Cimicifugas, Iris, Polygonatums, Sanguinarias, and most other perennials.

OUR STOCK IS GROWN HARDY IN THE CAROLINA HIGHLANDS

"NONE BETTER BY TEST"

TAKE ADVANTAGE OF THIS EXTRA SAVING

FALL PLANTING: As soon as stock is well-ripened is recommended for best results. This will enable the roots to get established before Winter and starts growing in early Spring before Spring planted stock overcomes the setback of transplanting.

TIME LIMIT—SEPTEMBER 1, 1944

SPECIAL NOTE

We have no connection whatever with any other Nursery. We employ no agents. Our entire business being transacted from our office at Ashford, North Carolina. **BEWARE OF PEDDLERS AND SO-CALLED NURSEYMEN CLAIMING TO REPRESENT US AND OUR NURSERY STOCK.**

Our long experience in the nursery business should recommend your careful consideration before buying elsewhere. Satisfaction guaranteed.

TERMS AND CONDITIONS OF SALE

Packing and grading will be held to highest standard. Certificate of Inspection attached to all shipments. Remittance or satisfactory reference required of unknown parties. Terms to those entitled, plus packing at cost on charge orders. Claims for any cause must be made upon receipt of goods. Correspondence and inspection invited. Visit our Nurseries. Shipping instructions should always be given fully.

All stock offered in this list strictly first class and is well graded. We can make prompt shipment, or will book and reserve such items as are wanted for later shipment.

NOTE: Should any of our regular customers wish to send in reservation charge orders as usual, invoice will be sent to cover at time of shipment. Transportation charges following to be paid by customer at destination.

Autumn planting is recommended for best results. This will enable the roots to get established before Winter, and start growing in early Spring before Spring planted stock overcomes the setback of transplanting. Autumn Planted Natives bloom well the first year and may save disappointment later.
